December 22, 1932. Sent to New Brunswick, N.J., and while there got all back copies of the "New Brunswick Home News," with the exception of six or seven; also arranged a six months subscription to this paper for Mr. Pfeiffer.

Engaged Peter Tammuly to take me to these places. Found no one home in Hassel's house.

I received the following information from Mrs. & Miss Turton: - That the boys had been down at the Camp between July 1st and July 12th, 1932, and that the girls went there from July 12th to July 19, 1932. That on or about Saturday, July 15th, 1932, some of the boys down there played a prank on the girls by going around the camps at about twelve o'clock midnight and frightening a number of them. Mrs. Hassell frightened the boys away by pretending that she had a revolver, saying, "If you boys don't get away, I am going to shoot. There is the gun" but in reality she didn't have any gun, and it is Miss Turton's belief that this is how the rumor got out that Mr. Hall had a revolver at Camp for protection. Mr. Hall was not there at that time as he had gone to New Brunswick to attend services at the Church there and return on Sunday night. When first told of the affair, Mr. Hall was little bit peeved, but after going into it thoroughly he thought it was one huge joke.

I find that O'Connell of the "New York Herald", and Curley of the "New York Times," are still in and around New Brunswick, and that two State troopers
